EDUCATION

Govind Ballabh Pant Institute of Engineering & Technology, Pauri Aug 2023 – July 2027
B.Tech, Computer Science (AI & ML)

EXPERIENCE

Intern – Avionics Systems Jan 2026 - Feb 2026

Bharat Electronics Limited (BEL), Kotdwar

Exposure to IACCS-related avionics and pilot interface concepts for the Tejas aircraft, with focus on system architecture, integration workflows, and defence engineering practices under strict confidentiality.

PROJECTS

Smart Wheelchair – Autonomous AI-powered wheelchair

- Developed an autonomous wheelchair using Raspberry Pi, YOLOv3-Tiny, and ultrasonic sensors for real-time obstacle detection.
- Integrated sensor data with motor control for safe navigation, path planning, and automated stopping/rerouting.
- *Tech:* Raspberry Pi, Python, OpenCV, YOLOv3-Tiny, TensorFlow Lite, Ultrasonic Sensor, L298N Motor Driver

RAINS (Regular Aerial Insight for Nature and Safety) – AI-powered UAV for forest surveillance

- Built an unmanned aerial vehicle (UAV) system for early forest fire detection and forest surveillance.
- Utilized onboard computer vision pipelines to analyze aerial imagery for smoke, fire, and environmental anomalies.
- *Tech:* Python, OpenCV, TensorFlow, Drone Flight Controller, GPS Module.

ACHIEVEMENTS & HONORS

National Delegate – Yuva Sangam Program (Govt. of India)

Selected to represent Uttarakhand at the Yuva Sangam cultural and technical student exchange program under the *Ek Bharat Shreshth Bharat* initiative.

SKILLS

Programming	Python, C, C++, JavaScript
AI & ML	NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, OpenCV, YOLO, Data Analysis
Web Development	HTML, CSS, ExpressJS, NodeJS, MongoDB, MySQL
Tools & Platforms	Git, GitHub, Postman
Hardware / Robotics	Raspberry Pi, Arduino, ESP32
